

DIDSBURY PIONEER

VOL. XXVIII, No. 3

DIDSBURY, ALBERTA, THURSDAY, JANUARY 22, 1931

\$2.00 per Year. 5 cents a copy

Electric Power Rates Are Reduced

The secretary-treasurer of the town received an intimation from the Calgary Power Co. that a reduction has been made in the service charge.

The letter states that in view of the fact that the revenue derived from the town of Didsbury during 1930, exceeded \$11,000.00, the domestic and commercial consumers will now enjoy a reduction of 30c. per month in their service charge effective in the Jan., 1931 billing.

We understand that the increased revenue for electric power is in large measure due to the fact that the Rosebud Flour Mills Ltd. have been able to operate at full capacity this fall and winter.

Obituary.

The death of Emory Curtis Webster, seen the passing of another of the old timers of the Didsbury district. Mr. Webster had been afflicted with a stroke last week and passed away on Tuesday afternoon.

The deceased who was 74 years of age was born at Oxford, Michigan. He came here with his family over 22 years ago and since then has farmed in this district. He leaves to mourn his loss, his wife, one son, Eugene, two daughters, Mrs. John Krueger and Evelyn Webster, also three grand children, all of Didsbury. He also leaves a brother at Dryden, Michigan and a nephew at Lacombe, Alberta.

The funeral will be held on Thursday afternoon from the M. B. C. Church.

Rev. C. J. Hallman left last week for Orange Cal. where he is conducting a two weeks Evangelistic meeting. In the pastor's absence the M. B. C. services will be held as usual, the pulpit being well supplied by different speakers.

Didsbury Oddfellows Install Officers

The installation of the Didsbury Lodge of Oddfellows, took place on Thursday evening. There was a large gathering of local members, together with visitors from Calgary, Crossfield and Oids.

District Deputy Grand Master W. Webb and Deputy Grand Marshall Northover, of Calgary, were the installing officers.

After the installation, supper was served and speeches were made by both local and visiting members.

The following officers were installed:

P.G.:	Bro. Ellis Barnes
N.G.:	Edford Ford
V.G.:	Jimmy Hallon
Sec.:	Percy Lunt
Treas.:	Ivan Weber
Warden:	Frank Fritz
Cond.:	Geo. Smith
Chaplain:	Bill Hartley
R.S.N.G.:	Ward Keith
L.S.N.G.:	Noble Cole
R.S.V.G.:	W. C. Algrim
L.S.V.G.:	H. Algrim
I.G.:	N. Hunsperger
O.G.:	E. Marcellus
R.S.S.:	C. Trenholm
L.S.S.:	G. A. Bridge

Didsbury Can Raise Pigeons Too

The "Calgary Herald" this week published an account of pigeons being raised these fine winter days by P. Burns & Co.

Calgary has nothing on Didsbury in this respect, as Geo. Hawkes' pigeons hatched out a couple of birds on January 1st.

Mr. W. T. Wrigglesworth, who has been the guest of Mr. and Mrs. L. J. Wrigglesworth for the past few weeks, left on Tuesday for his home in Canuck, Saskatchewan.

LOCAL & GENERAL

Glance in our Coming Events section.

Miss Nellie Wilson, of the Didsbury school staff, spent the weekend in Calgary.

Mrs. J. W. Phillipson, entertained the members of the Magazine Club, last Friday evening.

Mrs. A. Njohness, a former resident of Didsbury and now of Okotoks was visiting friends in this district, this week.

Miss Winifred Studer, returned to Elmore last Wednesday, after spending a few days with her parents.

Don't forget the Saturday Night Dances in the Opera House. Lady, 25c Gentleman, 25c. Bellamy Orchestra. u.f.n.

The annual meeting of Didsbury East Local of U.F.A. on Monday, January 26th. Whist drive after meeting. Everybody welcome.

Master Dalton Deadrick, young son of Mr. and Mrs. Arden Deadrick, is convalescing in the General Hospital, following a serious operation.

Coming to the Opera House on January 29th, the greatest of all the war films, "Journey's End." Don't fail to see this beautiful All-talking story of an ugly war.

Mrs. Jack McCoy, entertained last Saturday night at five tables of Bridge. Mrs. Ward Keith, won first prize and W. G. Evans second. While Mrs. J. Hallon carried off the consolation.

The many friends in this district of Mr. Norman Caruthers, of Lacombe, will regret hearing of his sudden death, he being found dead in his office on Tuesday. Mr. Caruthers was a past grand master of the Masonic order.

A "Hard-Time" Dance will be held in Didsbury Opera House on Wednesday, January 28th. Bellamy orchestra, and part-time dancing. Admission: 50c. each, supper included. Prizes for best hard-time costumes. Proceeds in aid of the Didsbury General Hospital.

The Didsbury Local U. F. A. is represented at the U. F. A. Convention which is being held in Calgary this week, by the following delegates: Messrs. Harvey Hoggood, J. D. Thomas and D. Lewis. Several other members of the local association are attending the convention.

The committee in charge of the donations for the Wood's Christian Home at Calgary, report that they are receiving a good response to their appeal for both cash and produce. Many farmers are donating butter, eggs, vegetables and wheat. The wheat is being milled free by the Rosebud Flour Mills, and Mr. Jim Cuthbert has promised to deliver donations to Calgary free of charge.

Mr. W. H. Davies was an Edmonton visitor last week.

Mr. Lloyd Reckman, of Edmonton, was visiting friends here last week.

A dance will be held on Wednesday, February 4th at Elton School, Bellamy Orchestra.

Mrs. Geiger, who has been a patient in the Hospital for a few weeks, returned home on Tuesday.

Rev. A. E. Hayes is taking for his subject this Sunday, "The Life of W. E. Gladstone, a Great Christian."

Didsbury Branch Canadian Legion will hold their general meeting on Saturday, Jan. 31st, 8 p. m. All members are requested to attend.

Errol Surder, Miriam, Otto, and Ray Harder, of Carstairs, spent Sunday with Mr. and Mrs. Allen Hunsperger and family.

Mrs. P. Liesemer, who underwent a minor operation at the hospital last week, returned home on Tuesday.

Meeting of Dairymen

The annual meeting of the Co-Operative Association will be held on Saturday, Jan. 24th, at 2 p. m. sharp, at the Opera House. In addition to the business meeting of the Association there will be speakers from the Olds Agricultural School, on subjects of interest to the dairy industry. Every farmer and his wife should attend this meeting.

Coming Events

Community Club concert and dance, Lone Pine Hall this Friday evening.

Dance at Community Hall on January 30th. Gent's, 75c. Ladies free. Lunch served.

Didsbury East Local U.F.A. annual meeting, Monday, January 26th. Whist drive after meeting. Everybody welcome.

"Hard Times" Dance in Opera House, Friday, January 25th, 80c. each. Supper. Prizes. In aid of Didsbury General Hospital.

Dance at Elton School on Wednesday, February 4th.

The Canadian Legion, Didsbury Branch will hold a Valentine Dance in the Opera House on Friday, Feb. 13th. Special old-time dances. Admission 50 cents each.

Annual Report of Evangelical S.S.

The annual election of Sunday School officers of the Evangelical Church, was conducted recently under the chairmanship of H. E. Ruppel, pastor, resulting in only a few minor changes in the appointment of officers for 1931. Much credit is due to the officers and teachers for the good work that was done during the past year. This was brought to view in the reading of the secretary's annual report preceding the election.

Very commendable gains and signs of healthy growth were indicated in every line of activity. Sunday School was held every Sunday throughout the entire year of 1930, with a staff of teachers and officers numbering 26. There are 134 scholars enrolled as members of the Sunday School—a gain of 22 over the previous year. Others present during the year, not counted as members, numbered 131—a gain of 148. The total gain in attendance over the previous year, was 124. Bible verses memorized by the younger scholars, totaled 7229—a gain of 251. All other lines of the Sunday School work, show a similar increase and with this very encouraging record of the past year, 1931 is entered in upon with great enthusiasm and high hopes in the work of religious education.

Whoopee Night, Great Success

The largest crowd to gather at the skating rink this season, attended the whoopee party given by the Didsbury Canadians, on Wednesday night, last and the Junior hockey boys are to be congratulated on the way they put on the affair. Room ball, which was played between Rosebud and Clovermont, provided lots of fun but no scores. The following were the winners of the races:

Boys race 12 and under: Bill Ranton, C. Cunningham.
Girls 12 and under: Helen Teskey, Mary Wrigglesworth.
Boys 15 and under: H. Lament and Fred Evans.
Girls 15 and under: Ruth Gabel, Jessie McCoy.
Men's open: Geo. Hardy, Alex. Belfus.

A tug of war between the farmers and Ranton's town team was won by the farmers after hard struggle.

Canada's Markets Abroad

The securing of markets abroad for the products of Canada, whether those products be in the form of foodstuffs, raw materials, semi-manufactured or fully manufactured articles, is one of the big tasks confronting not only the Federal Government, but farmers, producers, manufacturers, individually and collectively. It is safe to say that the Government of Canada, quite apart from the fact whether it be, for the time being, administered under Liberal or Conservative auspices, is sincerely anxious to develop existing markets and to secure an entry into new ones.

The task is a difficult one at all times, and particularly so just now in view of existing world economic conditions. Yet because of those very conditions it is all the more imperative that the maximum effort be put forth.

Canada is a young country, with considering its vast extent of territory and variety of resources, a comparatively small population. As a result, in almost every line of activity and industry, this Dominion is not only capable of producing, but is actually producing, an enormous surplus over and above what our own people require or can purchase and consume. The domestic market alone cannot, therefore, keep the people of Canada busy and make them and their country prosperous. Canada must have foreign markets in which to sell, and those markets must be continuously developed in order that the steadily expanding production of the Dominion may be profitably sold.

This situation for Canada is no new thing and has been engaging the attention of Governments at Ottawa for many years. It will be of interest to people generally to know how energetically and effectively the work of securing and developing markets for Canada in other lands all over the world is being prosecuted, through the offices of trade commissioners.

These Canadian trade commissioners abroad are credited with being largely responsible for the phenomenal development of the Dominion's foreign trade within the past decade.

During last year, the field staff obtained millions of dollars' worth of new business, arranged for 661 new agencies and solicited 4,245 reports to Canadian firms—all without charge to the exporters concerned.

Canadian trade offices are in strategic centers throughout the world. At present there are thirty-two posts, each administered by a Trade Commissioner, and in addition there are fifteen assistants, while eight juniors are in training in Ottawa for future work abroad. All but three of the fifty odd Trade Commissioners, assistants and juniors are graduates of Canadian universities, and the Trade Commissioner service is regarded as offering splendid opportunities for young Canadians with university training in arts, commerce, science and economics. The Trade Commissioners are sent abroad for a period of from two to four years, depending upon the climate in which the post is situated. They then return to Canada for an extensive tour of the Dominion. During this tour they visit the principal cities of the Dominion, interviewing Canadian exporters and any one else who may desire first-hand information on the territory covered by the Trade Commissioner. In this way they maintain personal touch with Canadian business men and keep thoroughly familiar with their country's industrial progress.

While the work of Trade Commissioners is primarily concerned with the development of Canadian export trade, they may be called upon at times to do work that is done for other countries by Ambassadors, Consuls and Commercial Attaches.

Unusual Problem For League

May Have To Settle Dispute Over Bond Instruments

Possibility is looming that the League of Nations may have to settle a dispute over instruments of the Smithborough, Ireland, hand. The British Customs authorities have seized the pieces after they had been sent to the parish priest of Rosslea, County Fermanagh. This was a sequel to the evidence given in a case heard at Monaghan, from which it appeared that the members of the Smithborough hand had a dispute, and the instruments were taken to the parish priest's home. Part of the parish is in the Free State and part in Northern Ireland. The trustees undertook to take the instruments back to Smithborough and pay the customs duty, but the British customs authorities have then now, and are demanding duty on them, as well as a penalty for taking them into Northern Ireland by an unauthorized route.

Cheap Transportation Method

Washington Farmers Use Pipe Line For Transferring Wheat To Market

Instead of hauling wheat eighteen miles over rough roads, several grain growers in the state of Washington send it from farm to railroad by pipe line. The grain slides through a one-inch galvanized iron pipe direct to the railroad station where unloading is done for some consignments, while in other instances wheat is run from the pipe directly into freight cars. Handling costs about fifteen cents a bushel and the pipe-line method less than two cents. Popular Mechanics Magazine.

For Neuritis

Minard's is unequalled. It swiftly ends the painful throbbing and leaves you lulled and relieved.

W. N. U. 1869

Sees Capital and Labor As Allies

Contention and Strife Must Disappear Says Sir Henry Thornton

Sir Henry Thornton, president of the Canadian National Railways, in an address at Philadelphia, Pa., said that future contact between Capital and Labor and between employers and employees will find its greatest progress and finest expression in what he described as the era of "The Partnership."

Sir Henry Thornton spoke before the Franklin Institute in a lecture on "Men and Industry." Sir Henry merits its right to partnership, said Sir Henry, "and suggests capital will welcome such a partnership with a recognition of the partnership principle. There, automatically, must disappear that contention and strife which is just as expensive in the industrial world as it is in the relations between nations."

"In the day to come, those industries will prosper most which accept labor as equal partner, and labor will best prosper when it recognizes the obligations and the dignity of that partnership."

Women and Cigarettes

National Crusade Against Women Smokers Launched At Boston

A national crusade to save women from the alleged social, moral and physiological perils latent in tobacco was launched recently at Boston. Against the growing popularity of the cigarette a group here has organized the "Anti-Smoking League for Women."

"Moral suasion" will be the first weapon of the league, according to Mrs. Robert P. Williams, president, but when and if that fails, laws will be sought to prevent women from smoking cigarettes. Pipes and cigars were not mentioned in the League's platform.

Men will be invited to join, Mrs. Williams announced. She admitted that there was slight chance of an immediate ban on cigarette smoking, but she had hopes.

"We aim to reform the minds of these young girls and young women, especially young mothers, who are smoking cigarettes," she explained.

"Fight the good fight with all thy might," was one of the hymns sung at a wedding at Twickenham, England, recently.

Dubs Trial a Farce

Believes Confession of Russian Engineers Was Staged For Effect

A belief that Leonid Ramzin, Russian engineer, whose death sentence was commuted after his conviction with seven others on accusations of plotting against the Soviet regime, is innocent of the charges against him was voiced by H. W. Brooks, of New York, consulting engineer and friend of Ramzin.

Brooks, who was in Europe with Ramzin, while the Russian engineer allegedly negotiated with groups hostile to the Soviet government, declared he saw "never a sign of a plot."

The confession Ramzin made accusing himself of sabotage and of plotting the overthrow of the Soviet Government, as well as the other proceedings at the trial of the eight engineers, was termed the "most naïve piece of propaganda I ever encountered," by Brooks. He further declared the confession was arranged by the OGPU, Soviet secret police, as part of a "revolving farce" to strengthen the position of the Stalin dictatorship.

Scientists Make New Discovery

Believe Alaskan Plant Is Pioneer Of All Vegetable Life

The "liverwort," a small delicate plant found growing in Alaskan lava beds, has been advanced by science as the possible pioneer of all vegetable life.

Striving to solve the riddle of the start of vegetation on the earth's crust in the dim past, an expedition of the National Geographic Society explored the lava wastes of the Alaskan Peninsula last summer and found the liverworts were thriving where no other plant life could survive.

The preliminary report of the expedition, headed by Dr. Robert F. Griggs, botanist, says the lava areas, created 18 years ago during the first eruption of Katmai volcano, were bare of soil, and there was no apparent traces of nitrogen, necessary for plant growth.

Where the liverworts have been established long enough to decay and form beginnings of soil, however, other plants were starting, said Griggs.

Started In Hard Luck

Series Of Accidents Marred Wedding In New Jersey

Several things happened before, during and after the wedding at Phillipsburg, New Jersey, of Mr. and Mrs. William Koch. They were approximately as follows:

The bridegroom's father fell ill and could not attend.

The flower girl fell from a piano stool and broke her arm.

The bride's mother fell down a flight of steps, receiving severe bruises.

A party of friends drove ahead of the bride automobile and stopped quickly. There was a collision.

A passing motorist stopped to inquire if his aid was needed. As he stepped from his automobile a fourth car hit him and knocked him down.

Mr. and Mrs. Koch had planned to go to Niagara Falls. They changed their plans and headed for Wilmington, Delaware.

Visitors From Britain

Many British and European Tourists Are Expected To Visit Canada

Within the next two years visits to Canada of British and European tourists, commercial and industrial men will be increased in number and enhanced in importance as a result of the dominating place taken by Canada recently on the European stage of world events. It was stated by William Baird, steamship passenger traffic manager for the Canadian Pacific Railway, who returned on the steamer "Duchess of Richmond," which arrived from Liverpool, England.

Unless worms be expelled from the system, no child can be healthy. Mother Graves' Worm Expeller is an excellent medicine to destroy worms.

"Let me prove to you that advertising brings results." "I know," groaned the manufacturer. "Yesterday I advertised for a night watchman—last night my shop was broken into."

Minard's Liniment for Frost Bites.

Felt Tired Out All Day

Could Not Sleep at Night

Mrs. Alphonse Lalonde, 2181 St. James St., Montreal, Que., writes: "After a spell of the gripple I was left very nervous, and felt drowsy and tired out all day, and could not sleep at night. I was also troubled with my head and did not feel at all like working. I was told about Milburn's Heart and Nerve Pills and after taking four boxes I was completely relieved of my trouble, and can recommend your Pills to everyone."

Sold at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Price 50c a box

Canadian Copper

Production Of Refined Copper Greater Than Domestic Demand

The proposal in Washington that a duty be levied on refined copper brings out the fact that Canada shortly will be producing more of this product than she requires for her own use. For many years the Dominion brought practically all its refined copper from United States. One of the complaints often made was that blister copper from Canadian mines went to United States where it was refined and returned in a much more expensive state for use here.

With the new plant at Copper Cliff which opened last July and the one erected by the Noranda and other interests in Quebec, the Dominion will be a considerable exporter of refined copper if these plants, as well as the one at Trail, B.C., all operate at capacity. It is estimated Canada uses 50,000 tons of copper a year. The total production of which the plants would be capable would be in the neighborhood of 200,000 tons.

At present there is a bounty of one-half cent a pound paid by the Dominion Government on copper refined in Canada from Canadian ore and used in Canadian manufacture. There is also a tariff against certain types of bar metals.

Simple and Sure.—Dr. Thomas' Electric Oil is so simple in application that a child can understand the instructions. Used as a liniment the only direction is to rub, and when used as a dressing to apply. The directions are so plain, and unmistakable that they are readily understood by young or old.

Ancient Pottery Found

Particles of pottery, arrow heads, shells, grinding stones and rocks of unusual formation have been found in an ancient mound on the banks of Cache Creek, near Lawton, Oklahoma. Practically every rock found appeared as if it had been in a fire. Edges of the stones are unusually sharp. Near the mound bones of some prehistoric animals were found recently.

The color orange is frequently used in marking trails because it can be seen well against the snow.

Costly Wedding Gift

For Noted Aviator

Kingsford-Smith Receives Silver Cutlery Service From Oakland, California

Among the costly presents for the wedding of Wing Commander Charles Kingsford-Smith and Miss Mary Powell, which occurred at Melbourne, Australia, Dec. 10, is a solid silver cutlery service in beautiful cabinet of birds' eye maple presented by residents of Oakland, California.

It was at Oakland that the famous aviator began his circumnavigation of the globe and trans-Pacific flights, and ended the flight around the world after crossing the Atlantic.

Asthma Cannot Last when the greatest of all asthma specifics is used. Dr. J. D. Kellogg's Asthma Remedy surely deserves this exalted title. It has to its credit thousands of cases which other preparations had failed to benefit. It brings help to even the most severe cases and brings the patient to a condition of blessed relief. Surely suffering from asthma is needless when a remedy like this is so easily secured.

Shipments From Flin Flon

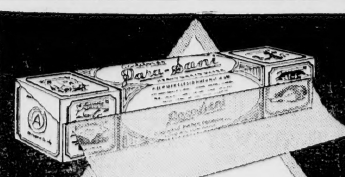

Manitoba Zinc and Copper Being Exported in Large Quantities

Shipments of blister copper and zinc have been coming through steadily from the Flin Flon since operations were commenced in the new smelter there in November, according to T. P. White, superintendent of our service of the Canadian National Railways, who reported that since November 1919, there have been nineteen cars shipped.

It is evident that much of this Manitoba zinc and copper is being exported as 15 of the cars have been billed to the Canadian seaports, Halifax and St. John. Four cars have been shipped to New York and two more to Toronto.

Minard's Liniment Aids Sore Feet.

Increase In Air Travel Passenger travel by air between London and Paris has increased from 715 in 1919, to 22,246 in 1929. More than 30,000 passengers are expected to be carried by commercial airplanes over this route during 1930.

Keep Foods Deliciously Fresh

Keep your foods—cakes, bread, pies, cut meats, etc.

—under a covering of Para-Sani Heavy Waxed Paper. You'll be amazed at the length of time they'll stay fresh, delicious! Para-Sani keeps them from staling.

Get Para-Sani in the handy, sanitary, knife-edged carton. For less exacting uses ask for Appleford's "Centre Roll". Packs in sheet form.

HUNTER-MARTIN & CO., REGINA, SASK.

Mechanization Of Industry And The Part It Plays In Our Industrial Life

In the mechanization of industry, agriculture, and commerce displacing man-power? Causing useless workers?

This challenge, heard before, is uppermost now in debate on unemployment.

Whether labor-saving machinery actually means fewer jobs is debatable. Yet it is worth while to consider the following information, carefully compiled, believed to be authoritative:

In Saskatchewan there are 41,164 farm tractors, practically one for every three farms. In addition to the tractor there is the combine harvester. In 1926 there were 148 combines in Saskatchewan; in 1927, 382; in 1928, 2,676; and in 1929, 2,279. Each of these machines will, at a conservative estimate, displace from four to six men.

Figures for Manitoba and Alberta are not available, but it is safe to say that there has been a comparative increase in the use of these machines on the farms in these provinces.

One power shovel today can excavate as much dirt on a city street as it required 200 unskilled laborers to shovel 30 years ago.

Twenty years ago all glass bottles were made by glass blowers. Today one machine makes as many as did 600 of these skilled men then. The bottle-making machine increased the output per man from 45 to 950 bottles per hour.

Ten years ago an automatic machine for the making of electric light bulbs was invented which produced 73,600 in 24 hours; formerly one man could make 75 in a day. Recent improvements so increase this productivity that each machine displaces 2,000 workers.

The strip mining of coal has produced a power shovel that lifts a ton of coal, dumps it in a car and returns for a second bite in three-quarters of a minute.

A dough-mixer and one man do the work of 20 bakers.

One girl with a re-cutting reeling machine does the work of 25 cutters; with a button-hole machine that of 50.

The lusting machine enables one man to do the work of 10 shoe-makers; machines now do 90 per cent. of the work of making a shoe.

The carton machine does the work of 10 hand wrappers.

One operator on an open health charging machine does the work of 40 workers.

A pig-curing machine with seven operators took the place of 60 workers.

With a cigar-making machine one man does the work of 15. Two men do the work of eight, helped by an automatic stoker.

An automatic conveyor enables 12 men to do the work of 150.

The Boston and Maine Railway has installed a mechanical device by which two or three men will switch as many cars as 400 previously set about the yard.

The dictaphone makes it possible for two typists to do the work of nine stenographers.

A cheese-writing machine that does the work of six clerks is in successful use. It writes a cheque every minute.

The magnetic crane operated by two men replaces 128. Twelve men, operating a crane, take the place of 37 in pouring molten metal.

An automatic butter wrapping and card printing machine will wrap in quarter portions and put cartons on more than six tons of butter in eight hours.

In modern steel making eight men turn out 100 tons where formerly they turned out 5½ tons.

A big excavating machine is now at work that will lift 45 tons of earth at a time and carry it a city block or even lift it to the height of a 10-story building with no other help than two hands to pull levers.

The making of bibles is now done by machines. In one factory 60,000 are bound, boxed and shipped in one day.

W. N. U. 1869

The dial telephone reduces the operating force to one-third.

It is estimated that under old hand methods it would require 1,600,000 men to make 10,000 Ford cars in the time now required, and they would cost \$10,000 each.

While the above by no means completes the list of labor-displacing machinery it will give a fair idea of the trend of modern industry, agriculture and commerce.

However, there is another side to the question, this: That somebody must be making all these labor-saving machines. They are made in factories, hundreds and thousands of factories, all giving employment. More than that, giving employment, copper, nickel, paint; make for development of mineral and other industries, give jobs in other trades.

There is the printing trade. Machines now do most of the work, set ordinary type, set up headlines, do most of the old hand-printer's job. Yet, curiously enough, there are more men employed in the printing trades today than ever before, not to mention thousands and thousands making machines for printers. There is the matter of consumption. An automatic machine may make 73,000 electric bulbs in 24 hours, as against 75 by one man twenty years ago, but how many electric bulbs are in use today compared with twenty years ago? And so on and so forth all down the list of commodities. We are using things now, weren't made at all twenty years ago, which gave nobody work.

So, come to think of it, what is called the mechanization of industry may not be such a bad thing. Perhaps if we got back to the stagecoach days of doing things by hand a lot of factories would close down and a lot of people lose their jobs.—Ottawa Journal.

Speedy New York

Automobile traffic in New York is being speeded up by the construction of elevated highways above the streets for fast travel. One such overhead lane extends north and south along the Hudson River waterfront where cars can travel at a fast clip without interference from cross traffic.

The practice of mummifying the dead in Egypt probably started as far back as 3500 B.C.

DARING ENGLISH AVIATRIX

Miss Winnifred Spencer, English aviatrix, who was mentioned in connection with a rumor that a woman was aboard R-101 when it crashed, and who has hopped off from Croydon, England, bound for America via Rome, Catania and Brindisi. Leaving Rome she was forced down in the Mediterranean and swam two miles to shore.

It Pays To Know How

Returns From Sale Of Poultry Depend On Proper Finishing

The returns the farmer gets for his poultry now depend directly upon their proper finishing. This includes crate or pen feeding, proper killing and careful plucking, appearance and quality must be of the best to bring the "Milled" price premium. The Department of Agriculture through its Publications Branch, is distributing without charge a new pamphlet "Preparing Poultry for Market" (No. 125-N.S.), which deals fully with crate feeding, killing and dressing, and government grades.

Federal Farm Loan Scheme

Two Million Dollars Paid Out To Alberta Farmers This Year

Two million dollars have been paid out to Alberta farmers this year under the Federal Farm Loan scheme, says Hon. J. D. McLean, commissioner. A total of 392 applications were approved by mid-November and this number will likely swell to 600 before the end of the year, according to the commissioner who has been on an inspection trip during the past few weeks, touching at those centres where Provincial and Federal Boards are operating.

"Poor Jones is dreadfully anxious about his wife."
"Why, what has she got?"
"The car."

Footprints Of Dinosaurs Are Found Far North In The Foothills of Rocky Mountains

Should Protect Waterfowl

Alarming Decrease In Number Of Ducks and Geese Is Noted

Figures given the other day by Benjamin Lawton, game commissioner for Alberta, indicate that there is an alarming decrease in the number of ducks and geese. Reports from 125 points covering all Alberta confirm the commissioner's statement, 1925 stating that fewer ducks had been seen this year. Five reporting no change and only seven announcing an increase. A similar tale comes from the United States. The cause is easy to find. The ducks and geese are being killed by hunters faster than the natural increase. For instance, out of seven million hunters in the United States, who took out licenses, it is estimated 2,000,000 shot waterfowl, with probably another 200,000 in Canada. On this basis, and allowing five birds to each hunter, it develops that 11,000,000 waterfowl were killed this year. This, Mr. Lawton declared, was more than the yearly natural increase. And the decrease, if this rate of slaughter is kept up, is in geometrical progression; in other words, it will not take long for ducks and geese to become as scarce as the old wood pigeon, which now is extinct. Edmonton Journal.

Decide On Scholarships

Awards In Junior Judging Competition At World's Grain Conference

Scholarships valued from \$200 to \$700 have been decided upon as awards to the five students standing highest in the junior grain judging competitions to be held in connection with the World's Grain Exhibition and Conference to be held at Regina, in 1932, according to an announcement made by C. M. Hamilton, chairman of the committee, which met at Toronto during the week of the Winter Fair. Originally it was intended to present a valuable trophy to the team securing the highest standing in the inter-college competition. The modified regulations not only make provision for a trophy to the winning team in the inter-college section but in addition scholarships for post graduate courses valued at \$200, \$400, \$600, \$600, and \$700.

Most small birds have high pitched voices.

Far up the Peace River in British Columbia, among the foothills of the Rocky Mountains, C. M. Sternberg, Canadian government paleontologist, has discovered the footprints of dinosaurs, huge reptiles that roamed over parts of the North American continent millions of years ago. It is the most northerly point in the world where dinosaurs are known to have existed and their discovery throws considerable new light on the life habits of these prehistoric animals.

More than 400 tracks were found in the rocks made by at least five distinct species of dinosaurs. They range from six inches in length to 25 inches. The largest tracks were made by an animal at least 35 feet long and the smallest by a creature about 12 feet long. Mr. Sternberg prepared models of some of the tracks and these show the largest to be practically two feet square and sunk into the rock about seven inches.

Although the whole district was hunted thoroughly no dinosaur eggs were discovered such as Roy Chapman Andrews unearthed in Mongolia some time ago. The Mongolian eggs were about eight inches long but if an egg could be found of the species leaving the two-foot track it would probably be 18 inches long, Mr. Sternberg said.

The spot where the discovery was made was close to Hudson Hope on the Peace River, about 175 miles north of the international boundary line. The river, at that point, has carved out a deep canyon, leaving bared many layers of rock. When the dinosaur roamed in those parts the area was a mass of fresh water lakes, probably leading into the huge salt water sea that stretched from the Gulf of Mexico to the Arctic. The Rocky Mountains, at that time did not exist. The dinosaurs lived on the western side of the 72nd sea, basking in the sub-tropical climate that gripped those latitudes. Fossilized ferns, palms and other sub-tropical plants were found by Mr. Sternberg in the same locality as the dinosaur tracks.

The greatest deposit of dinosaur bones and skeletons in Canada is near the Dead Deer River in Alberta. Strongly enough, although there are plenty of bones there, only one track has been discovered and while there are many tracks in the Peace River district, no bones have been unearthed.

Mr. Sternberg removed the rock containing some of the more perfect tracks for preservation in the National Museum in Ottawa.

Colonization Of Maritimes

Desirable Immigration Can Be Absorbed In The East

The Maritime Board of Trade at annual meeting at Moncton, N.B., went on record as favoring the development of immigration and colonization at the present time in Maritime Canada. A resolution pointed out that emphasis in immigration had traditionally been placed on the west. The time had come when desirable immigrants could be absorbed profitably in the east it was stated.

Only those who have nothing to do look upon life as a burden.

He: "How charming is that simple dress you are wearing!" I have just paid \$50 marks for one dress of yours. "That is a stupid price!" She: "But, dear, that is the bill for this dress."—Der Genüthliche Sachs, Leipzig.

MR. AND MRS. TRELLE WITH OFFICIALS OF C.P.E. RAILWAY

When Herman Trelle, for the second time, won the world's wheat championship at Chicago, and for the sixth time captured a world's grain championship, he was 34 and his wife, Mrs. Trelle, in working dress on their farm at Woundeday, in the Peace River district. On the right is E. W. Beatty, chairman and president of the Canadian Pacific Railway, and on the left, Sir Herbert Holt, director of the company, photographed during a visit to the Peace River and its fertile lands 700 miles north of the international boundary. Trelle's latest triumph brings to western Canada for the seventeenth time in twenty years the world's wheat crown.

DOMINION GOVERNMENT'S BULL LOANING POLICY

For several years now beef and dairy cattle men have gradually been working an improvement in their herds throughout Canada by using registered sires on their grade and purebred herds. Unfortunately however, many of the small breeders have found it impossible to purchase famous blood line animals, owing to the high price at which they are sold and have in the past more or less had to do the best they could under the circumstances.

Hon. Robert Weir, minister of agriculture in the federal house, has been alert to this condition, and as a remedy has outlined a new bull loaning policy where it is determined that such a course would reap benefit for both breeders and the industry as a whole.

The conditions under which these registered bulls will be loaned, is briefly stated as follows:

(a) Where three or more owners of small herds fairly close to each other find themselves without a pure-bred bull.

(b) Where the type of bull asked for seems to be suited to the district.

(c) Where a club is properly organized, as per simple regulations clearly set forth and obtainable from the Live Stock Branch, Department of Agriculture, Ottawa.

(d) Where the club makes provision to accept delivery of the bull at the nearest railway station, and to put the bull into the hands of a caretaker acceptable to the live stock branch and to maintain the said bull in good condition at their own expense and at all cost to the department.

(e) Where the club agrees to be considered one of a group of at least three clubs to be provided with loans of the same breed and to exchange bulls with these clubs not less frequently than every three years and not more frequently than every two years, always of course only with the approval of the department.

(f) Where club members agree to do away with any grade bulls that may be in their herds at the present time and to neither keep nor use any grade bulls so long as they remain members of the club.

In all breeds the very best bulls available will be secured and in the case of the dairy breeds A or AA bulls or bulls of equal merit only will be supplied.—Market Examiner.

The price of a loaf of bread in Great Britain is 16 cents for a four pound loaf. In Germany, with a tariff on wheat, it is eight cents a pound for the white wheat flour loaf. In Italy, with a still higher tariff, it is 11 cents a pound, though the bread is much inferior to the British loaf. Is it any wonder that the Labor Government of Great Britain hesitates about putting an import tax on wheat?—Leithbridge Herald.

LOCAL & GENERAL

Dance at Community Hall on Friday, January 30th, under the auspices of the W. C. Helian Four-piece Orchestra. Admission: Gent's, 75c. Ladies free. Lunch served.

The Annual meeting of St. Cyril's Church, will be held at the Opera House on Friday evening, January 23rd. After the meeting, supper will be served and a social evening spent.

Mr. H. Morgan has had his photo taken in full golf costume. It is now on view at the C.P.R. Depot. If you care to see him in action, pay 5c, which will be devoted to charity.

Mr. A. A. Halliday and Mr. H. D. Halliday of Crossfield, came up on Monday to take over the A. G. Studer grocery store. Mr. D. Halliday will remain here and will be associated with Mr. S. Willis in conducting the business.

On Monday night, January 12th, the Christian Endeavor League of the Evangelical Church, drove to Dog Pound Bridge at Westcott, where the evening was spent in skating. Leonard Borscht occupied the driver's seat, and made a very efficient driver. The trip out was enjoyably spent, merit being the keynote. After skating, the members repaired to the home of Mr. and Mrs. J. L. Tuglie, where a dainty lunch was heartily enjoyed by all. Shortly after, the group left for town. We hear that the group-leader, Rev. H. E. Roppel, was taking skating lessons. Our advice to him is to "keep it up."

Mr. R. A. MacFarlane, of Westcott, made two good sales from his herd of purebred Herefords last week, selling his herd-sire, "Pinecoulee Headlight," No. 59381 to Mr. A. Robertson & Son, of Westcott. An offspring of "Pinecoulee Headlight," "Bonny Boy," a fine bull-calf, was sold to Mr. H. E. Klinek, also of Westcott. "Pinecoulee Headlight" was bred by Mr. J. M. Sinclair, of Stacey, Alberta. His sire, "Kruget," No. 41752, was champion at the Calgary Spring Show and Sale, 1926, while his brother, "Pinecoulee Ideal," No. 62077, also bred by Mr. Campbell, was champion last year. This bull has proved his worth in Mr. MacFarlane's service, and is fully expected to keep up his reputation in his new home. "Bonny Boy," Mr. Klinek's purchase, is a fine Hereford type, and it is anticipated he will duplicate his sire's record.

FERTILE CHINOOK

The fact that the land of this part of Alberta appears to retain its fertility without any effort at fertilization, is frequently discussed. One theory which was given recently is, to say the least, interesting, and sounds reasonable. Credit is laid to power, carries a limestone deposit from the mountains, scattering over the land coming within its influence. Attention has been called to the haze which hangs along the farther foothill country when a chinook is blowing. This is said to be the limestone in the air. The mountain ranges to the west of us are of limestone and it may easily be that a perpetual though invisible shower of that fertilizer descends upon the land, restoring its vitality.

CAN HAPPEN

This story is told by the Goderich Star: Funny what a little spider can do. The terrible radio interference of the last week was eventually run to earth on a street light in front of the Royal Bowling Alley. The trouble was found to be spider webs in the socket allowing the high voltage street light current to arc through and putting an effective blanket of interference over the whole town. Two days were spent in running this "little monster" to earth. Several troubles of minor nature were located but this proved to be the big one.

(586)

Forty years of service with the Canadian Pacific Railway have received recognition in the appointment of George Hodge, assistant general manager, eastern lines, to be manager of the newly-created department of Personnel of the railway, announced by Great Hall, vice-president of the company recently. Mr. Hodge was specially selected for the appointment in view of his wide experience in labor matters and his particular flair for organization and kindred activities. He was especially in the limelight at the time of the McAdoo award when his presentation of that situation evoked unstinted praise in Canada and the United States.

Likelihood of a large entry list from the Prairies for the third annual Empress Hotel Midwinter Golf tournament to be played at Victoria Golf Club February 22-23 is indicated in enquiries pouring in from leading amateurs of the plains. Last year the tourney brought together 150 leading men and women golfers of the North Pacific and the Prairies and it was the pessimists who upset the hope by carrying off important portions of the silverware against the best golfers of Victoria, Seattle, Vancouver, Tacoma, Portland and Spokane.

Since the opening in 1923 of the New Brunswick School of Agriculture, 156 young men have attended the annual fall short course in practical agriculture. Attendance at the 1929 course which closed December 19, was the largest on record, the number of students registered being 25, half of them being members of young people's livestock and poultry clubs. The silver cup for general proficiency was awarded to Ralph H. Colpitts, of Port Colborne.

So fine is the quality of the turf produced by Best Grass seed, a comparatively new variety introduced in Canada, that during the past five years between 50,000 and 75,000 pounds of the seed have been exported to the United States each year. The best quality is produced in Prince Edward Island and is used for lawns, golfing and bowling greens.

Motor tourist traffic to New Brunswick from the United States was 44 per cent greater in 1930 than in the previous year, this percentage of increase in tourist business being the greatest shown by any province of Dominion during that year. It is claimed by the New Brunswick Government Bureau of Information and Tourist Travel. Value of the trade is placed by independent estimates at \$18,000,000 in 1929 which must have been fully maintained if not up to \$20,000,000 in 1930.

HOCKEY

The local boys sustained their reputation by making another winning over the Calgary Hawks 3-1, on Saturday night. So far this season they have won five league games and lost one.

Gerlitz opened the scoring for the Hawks when he made a solo rush, giving the local goal keeper no chance to save. Cook equalized the score with an assist from Johnson. The visitors challenged this goal and the game was continued under protest.

In the second period, Cook put the local boys in the lead with a rush that beat the Calgary goalie all the way. The visitors worked hard but were unable to penetrate the local defence.

Boutcock scored the final goal when he went clean through the Hawks team and pushed the puck into the corner.

Cook, Johnson and Boutcock played a star game for the locals, while Gerlitz was the pick of the Hawks.

Didsbury—Stauffer; Boutcock, McCoy; Cook, Johnson, Robinson; Liesemer, Hardy, Huget.

Hawks—Fisher; Dippel, Gerlitz; Patton, Hergert, Morasch; Pettley, Krumm.

Referees, J. Anderson and C. Reiber.

The Didsbury Canadians, went to Bowden on Tuesday night and met defeat by a score of 3-2. The small rink and poor ice handicapped the Didsbury boys. Robinson and Huget were the scorers for the Canadians.

Didsbury Puck-chasers took an easy game from Three Hills Monday night, 14-4. The boys were all on a scoring spree. Cook, Johnson, Robinson, Huget and McCoy all getting counters. Stauffer played a fine game between the lead pipes while Hardy, McCoy, Currie and Huget showed up well.

The game next Saturday night, between Didsbury and the Calgary Hornets, is the important game for the local boys. If they win this game they will have the league championship clinched. Come out and give them your support.

Curling

On Monday evening, four rinks from Three Hills, visited here to play a friendly bout with four local rinks.

In the 7:30 draw, Shelbline, of Three Hills, beat Johnson, by 9-5 while Edwards, got the better of D. Witwer, to the tune of 10-8.

In the second draw, Dr. Clarke and L. Kaufmann, played a tie 7-7, but Brusso's victory over Haynes, 10-4, gave Didsbury the victory for the evening with 4 up.

The local rinks rinks were: Johnson, skip; Dr. Evans; Jim Kirby, and Jim Morris.
Edwards, skip; Ed. Shand; Lorne Frey, and Tom Morris.
Brusso, skip; Clint Reiber; Noah Eckel, and Harry Gabel.
Dr. Clarke, skip; C. F. Dooley; W. G. Liesemer, and J. Liesemer.

After the game, the visitors were entertained to supper by the home rinks.

Two Didsbury rinks are dated this week to compete for the McDonald Trophy.

Here and There

"The Canadian Government is co-operating with ranches and exporters in their efforts to secure a market in Great Britain for Canadian cattle," said Hon. Robert Weir, Minister of Agriculture, who visited Montreal recently to inspect an experimental shipment of western steers at the stockyards in that city. The cattle, comprising 416 head of shorthorns, Herefords, Angus and pure-bred steers, were brought to Montreal on Canadian Pacific Railway for shipment to Manchester, England.

NOTICE OF ANNUAL MEETING

Public Notice is hereby given that a meeting of the electors of the town of Didsbury, and Didsbury School District, No. 652, will be held in the High School Building on Friday, the 29th day of January, 1931, at 8 o'clock p.m., for the purpose of receiving the auditor's report of the finances of the town up to the preceding 31st day of December, and for the purpose of receiving the reports of the chairmen of the various committees of the council.

Dated at Didsbury this 19th day of January 1931.

W. A. AUSTIN,
Secretary-Treasurer.

NOTICE OF NOMINATION MEETING

Town of Didsbury Municipal Elections, 1931.

Didsbury School District, No. 652,
Election of Trustees, 1931.

Public Notice is hereby given that a meeting of the electors of the town of Didsbury, and Didsbury School District, No. 652, will be held in the office of the Secretary-Treasurer on Monday, the 22nd day of February, 1931, from 11 o'clock in the forenoon, till 12 o'clock noon, for the purpose of nominating candidates for the offices of Mayor, Councilors, and School Trustees for the next ensuing two years.

GIVEN under my hand at Didsbury Alberta, this 20th day of January, 1931.

W. A. AUSTIN,
Secretary-Treasurer.

11 Years' Constipation Glycerin Mix Ends It

"For 11 years I tried to get rid of constipation," says Chas. E. Blair. "Then at last the simple mixture, Adierla, made me regular."
The simple mixture of glycerin, buckthorn bark, saline, etc., (Adierla) acts on BOTH upper and lower bowel, relieving constipation in 2 hours! Brings out poisons you never thought were in your system. Let Adierla give your stomach and bowels a REAL cleaning and see how good you feel!

CHAMBER'S DRUG STORE

The Secret of Co-operative Marketing, Is Volume

Each individual head of stock has a direct influence, not only in the market, but in the shipping costs.

I intend to visit every producer of livestock in the Didsbury district, but if any producer having stock ready for shipment, will let me know, I will see their stock, and give all the information I can, regarding prices and cost of shipment.

Give us the volume, and we will reduce the shipping changes.

See me at the stockyards, Tuesdays and Wednesdays, or phone (Monday evenings) 84.

Get Set For Banff Carnival

Queen Doris W. Parkes

A Pretty Skier

Off For A Hike

Pat Brewster President

W.E. Round Secy.

Skiers in Action

Traces of the Stony Indians and the colorful face of bright-hued blunets, befeathered head-dresses, beaded aprons and abby-eyed passers. As if all this were not enough to crowd into one short week, there is the great Ice Palace, lit up at night with fireworks displays, the annual trip about of the Banff Glen Club, the parking contest with its high light of the famous diamond

The stand-out week in the west this winter will be February 1-4 when the Banff Winter Sports Carnival will be held. Parade of skiers, skaters, snowshoers, curlers, hockey, skating, tobogganing, and it ends up with the election of the Queen for the coming year. Lay-out shows skiers in action under the shadow of the mountains with lots of water dress of the heart of the Rockies, clothed in their blue, secretary-treasurer of the sports and the pretty little town of Banff is lit from end to end. Miss Doris W. Parkes, of Vancouver, Queen is a blonde of colored light with, here and there, the of the carnival.

WORLD HAPPENINGS BRIEFLY TOLD

Extension of air mail service from St. Paul and Minneapolis to Winnipeg has been set tentatively to begin January 15. The extension will complete an aerial service of 11,000 miles.

Eleven brothers whose ages range from 17 to 42 form a football team which has won six of eight matches played this year in England.

A flat increase of \$180 in the annual salaries of all Dominion Government workers is to be one of the 1931 aims of the Civil Service association of Ottawa.

Every sixth one of the 22,215 persons arrested in Montreal during the past eleven months were women, according to the annual report of the city police.

If men have to pay poll tax, employed women should pay too, thinks the Chatham city council, for it has drafted a resolution to the Ontario legislature urging the necessary employment legislation.

A gift of \$1,000 life insurance policy is made to each child born in the new Maplewood Hospital at Malden, Mass. Hospital authorities were of the opinion that the practice was unique in the United States.

Reduction of 50 per cent in the number of Canadian immigration visas in November as compared with October, is noted in statistics issued by the state department at Washington.

The gross earnings for the Canadian National Railways for the period ending December 7, 1930, were \$3,641,201, as compared with \$4,447,669 for the corresponding period in 1929, a decrease of \$787,858.

Since additional revenue is not necessary, the town board of commissioners at Winton, N. Carolina, has decided not to collect taxes this year. Winton, founded in 1769, population 709, operates two farms to support itself.

Big Wool Crop

Prices, However, Have Fallen 30 To 40 Per Cent

Total production of wool in Canada in 1930 is estimated by the Dominion Bureau of Statistics at 21,016,466 pounds as compared with the revised figure of 20,253,000 pounds for 1929. Provisional estimate of the value of the 1930 clip is placed at \$2,527,000, compared with \$4,057,000 in 1929.

By provinces and for the Indian reserves the wool production for 1930 is as follows: Prince Edward Island, 496,000 pounds; Nova Scotia, 1,028,000; New Brunswick, 875,000; Quebec, 4,968,000; Ontario, 9,225,000; Manitoba, 1,268,000; Saskatchewan, 1,211,000; Alberta, 5,116,000; British Columbia, 1,163,000; Indian Reserves, 36,000.

Wool prices in 1930 have fallen 30 to 40 per cent, as compared with the previous year, and are now lower than any year on record.

Animal Instructors

Learning gymnastics from monkeys, horses, and dogs is the latest system evolved by a German physical-training instructor. At his school he keeps a number of animals, which his pupils observe carefully as they run, jump, swim, and climb. Then the pupils try to imitate the natural grace of the animals.

According to recent figures, France has the lowest railway rates of any country in the world.

"I cannot accept you as a husband, but I will be a sister to you."
"Good. When do you think we shall inherit our father's fortune?"
—Euen Hamor, Madrid.

Greetings From Overseas

Canadian Boys and Girls Receive Christmas Greetings From Sir A. Stanley, Of British Red Cross

Sir Arthur Stanley is no stranger to Canada, having spent his boyhood days at Ottawa, when his distinguished father, Lord Stanley of Preston, was Governor-General from 1888 to 1893. Because he was keenly interested in Canadian sports in his youth, the Stanley Cup which is the crown and glory of Canadian Championship hockey, was given, which perpetuates the Stanley name in this country.

As chairman of the executive of the British Red Cross, Sir Arthur has served his day and generation nobly in all matters pertaining to the health and happiness of the people by the promotion of Red Cross aims of mitigating suffering and establishing health service.

Writing to the boys and girls of Canada, Sir Arthur sends them all a Christmas message which is as follows:

"Here in the Motherland we are proud of you Canadian Red Cross Juniors, of your pioneer spirit, of your numbers and of your energy. We know that by keeping the laws of health you are taking the first step in the service of your country, for it is in the health and vigour of her citizens that the prosperity of a people dwells. We know that through your hospitals for crippled children and in many other ways you are relieving the sufferings of those less fortunate than yourselves.

It is a great thing that boys and girls should take part in the work of the Red Cross and by doing those things that are wholesome and kind and by taking opportunities that come in the way of everyone of us to help others, you can be worthy members now of that great Society which we hope you will continue to serve all your lives."

Recipes For This Week

(By Betty Barclay)

BEAN MEFFINS

- 1/2 cup flour.
- 1/2 teaspoon salt.
- 1 cup bean.
- 3/4 cup orange juice.
- 1/2 teaspoon soda.
- 1 tablespoon molasses.
- 2 tablespoons melted butter.

Sift flour and salt; add bean, orange juice (in which soda has been dissolved and stirred until it begins to froth), molasses, and melted butter. Beat vigorously, and pour quickly into hot, buttered gem-pans, and bake in a hot oven.

FRUIT KISSES

- 1 egg white.
- 1/2 cup confectioner's sugar.
- 1/4 cup almonds, chopped.
- 1/2 cup dates, pitted and chopped.
- 1/2 teaspoon vanilla.
- 1/2 cup grain salt.

Shell the almonds. Plunge into boiling water. Rub off skins. Chop. Pit the dates. Chop.

Beat the egg white until stiff. Add sugar gradually while continuing the beating. Add salt and vanilla. Fold in almonds and dates. Drop from the tip of a teaspoon on a well buttered baking pan. Bake in a slow oven about thirty minutes. Cool for a few moments before removing from pan with a spatula.

Ship Christmas Trees To U.S.

Half a Million Trees Shipped From New Brunswick To U.S.

More than half a million Christmas trees are being shipped from the province of New Brunswick to points in the United States.

For the past few months gangs of men have been busy in the woods cutting the young trees. From the woods the trees are hauled to railway stations where the butts are sawn off before being shipped.

The supply of Christmas trees from New Brunswick for the United States comes entirely from privately-owned lands as the exportation of such trees cut on government-owned lands is forbidden.

Golfer (to members ahead): Fardon, but would you mind if I played through? I've just heard that my wife has been taken seriously ill.

It is almost as easy to find trouble as it is to make excuses.

RED DICTATOR

Joseph Stalin, Red dictator of Russia, whose evidence broadcasts in present trial of eight engineers has aroused strong protest in both England and France. Alleged confessions in Moscow trial implicates these countries in "plans" of an interventionist war against the Soviet.

Cost Of Chinese Civil War

Less Of Life In One Province Alone Over Four Million

The New York Sun calls attention to the cost of China's civil war in terms of human life. The Province of Hupeh is cited as typical. Here statistics show the population to have been diminished by 1,000,000 in three years. This Province has not suffered from famine or pestilence, and there has been no general emigration. In 21 of its counties which lie outside the war zone, there was a normal increase of 1,000,000 in the population. Four million lives, at least, have been wiped out of the remaining forty-seven counties, through war and brigands. If the figures could be given for the whole of China during this period, in addition to losses by famine and pestilence, they would be appalling.

Relief For Eskimos

Conditions of deprivation, faced by the Eskimos in the far north, will be met by distribution of food and clothing at the government's expense, it was stated at Ottawa. On instructions from headquarters in Ottawa, Royal Canadian Mounted Police are to get supplies from Hudson's Bay posts and fill the requirements of the Eskimos.

The total number of kinds of animals now living approaches the 2,000,000 mark.

Language Is Difficult

Tourists Find Conversation In Hungary Almost Impossible

Travelling in Europe as far as Vienna is comparatively easy but after that on account of the language, one has not a Chinaman's chance to understand what signs stand for, is the opinion of Gordon W. Edgar, of the Rogers Peet Company, of New York.

The Hungarian language is so composed that if you were to drop the letters of the alphabet into a bag and then draw them out at random and form them into words you would obtain the same result. If there is any doubt about it, all that is necessary to do is to sprinkle them with quotation marks, accents and dashes and you have the Hungarian language as it is not spoken by westerners.

The menus in the hotels and restaurants of Budapest are printed in that language and no other. There are only five words on them which you could recognize, three English and two French: sardine, bacon and eggs, turnovers and lards. These must be the things ordered if they travel down there. If they pointed to anything else they would be in hard luck. Bouquet chose when served would not be recognized by its maker. But you obtain a good meal if you pick up the table d'hôte card and tell the waiter "clay." He understands that.

The Slavs are an obliging race and quick on the "up-tick." One of Mr. Edgar's pet hobbies was to ask a policeman how he got to some public monument or the hotel in which he was staying. The officer invariably caught the name and by gestures indicated how to find it.

Budapest compares favorably with Vienna and Paris. In fact, a view of the twin cities and the river Danube disappearing in the distance, from the foot on the mountain or from the Bastille des Prechers cannot be equalled. The site of the Royal Palace is also magnificent and the former residence of the Hapsburg royal family is better cared for than the one it occupied near Vienna.

Budapest is about 1,200 miles from London but it is worth going a long way to see.

One of these days we will be locating our farthest north grain fields as so many miles south of the Arctic circle instead of so many north of the United States border.

Still you can always call up the newspapers to see if what you heard over the radio is true.

A Floating Gas Station

Enterprising Man Serves Motor Boats In Gourock Bay, Scotland

An enterprising boat builder and repairer has launched and moored in Gourock Bay, Scotland, a floating filling station, where motor boats of every description can run alongside and have their tanks replenished. The new supply boat is fitted with automatic petrol and oil pumps, similar in every way to an ordinary roadside garage, and marine motorists on the Clyde hail the innovation as a welcome labor-saving installation. Already the home estuary has a floating repair shop which periodically visits the main boating centers, but in the future there is little doubt but that every progressive coast resort will have its row of floating or water-side pumps to keep up with the rapid advance of motor boating.

Service For Passengers

Airplanes Signal Trains When Transfer Is Necessary

Air liners of the trans-European and Australian air services are being equipped with powerful searchlights for the purpose of signaling and halting express trains, and transferring passengers and mail, when the airplane is threatened with an accident or delay through mechanical difficulties, says Popular Mechanics (Chicago).

"Some of these searchlights have half a million candle-power, and are used for observation at night as well as for signaling.

"When the pilot encounters difficulties while following the railroad express lines, he signals to a train that he is about to land and the train stops for the transfer of his load. The plan is intended to assure connections with ocean liners for mail and passengers.

Canada's Best Customer

Great Britain Takes Two-Thirds Of Our Wheat Exports

Canada's wheat and flour exports for the first quarter of the present crop year, ended October 31st, show Great Britain still in the role of the Dominion's best customer, taking two-thirds of its wheat exports and more than a quarter of its flour shipments. Of the wheat exported, totalling 73,410,550 bushels, Great Britain took 49,807,595 bushels, and of the flour shipped, amounting to 2,175,273 barrels, the United Kingdom took 774,881 barrels.

Norwegian fishermen are considering shipping frozen fish to this country.

Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

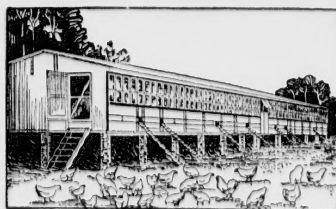

WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but

allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

CUT DOWN YOUR LOSSES BY INSTALLING WINDOLITE

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

CHAPTER VII.—Continued.

Her voice trembled. She stopped abruptly in an effort to control it. "What's that you're wonderin'?" said the old man quietly. "Better let Uncle Sim see your troubles. Get em on your chest and you'll feel better."

Gay laughed shyly. "I—I haven't any real troubles, Uncle Sim. They're all imaginary. Nick's a darling. I wouldn't change him for, for the President of the United States! But sometimes I wonder where he'd be if—I hadn't asked me to marry him. Not in Bakersville surely. Except for our two previous weeks in camp each year, he hasn't been away a day since we came back from our honeymoon."

"Well," prodded the old man, seeing that the story was not half told, "he's been off full as much as you have, hasn't he?"

"That's different," she answered quickly. "I love to roam, but I love my own hearthstone best. I'm not the bona fide tramp that Nick is. The other night," she put her hand to her throat as if something hurt her, "we were sitting together on the porch, and our new neighbor began to sing. Her voice is beautiful. I don't know what she was singing, but it had a Gypsy lilt to it that would have stirred anyone, on a spring night. Nick didn't say one word, but I knew how it made him feel. He wanted to run, run, to the ends of the earth. He wanted the freedom he used to talk about. . . . I almost hated the woman for singing that way on such a night. It seemed as if he was singing straight at Nick. I—I almost believe she was."

"When she stopped he got up without a word and we went inside, but his hands trembled when he turned on the lights, and I couldn't say anything. Uncle Sim, I'd have cried if I'd spoken; and there didn't seem to be anything to say. Then suddenly he turned to me and smiled. It looked my heart that smile, because I knew how he was feeling. But he came close and put his hand under my chin and lifted up my face so he could look straight at me."

"Gay," he said, "you've got the most wonderful eyes in the world. They'd sting a man right back from the jaws of Hades. I hope you'll be an old maid if ever I'm tempted to commit a crime!"

"He was speaking lightly to dispel the atmosphere that song had created; but when he kissed me I—I sort of gave out."

"Gave out?" questioned the old man, as she panted. "Gave out? What you mean, Gay?"

"I mean I—cried, Oh, Uncle Sim, I don't know why I'm telling you all this! I wouldn't tell another soul in the whole world; but you're the nearest thing to a family that we have. I don't cry easily, you know, or often. That's why I cry so hard when I do cry. I haven't been feeling very well, and I was sort of discouraged. And now, since I got going I couldn't stop. Nick was frightened, poor dear! He wouldn't let me out of his arms till

midnight. It ought to have cleared the atmosphere, a storm like that, but it didn't. I can't help feeling that something dreadful is hanging over us—the way you feel when an awful thunder storm is in the air."

Simon Bartlett moved his hand to his limp collar, which had suddenly become oppressive.

"There ain't nothin' hangin' over you at all, dearie," he said quietly. "What you need is a change of air. After the middle of May Bakersville ain't a fit place for a pole cat to reside in, to say nothing of human beings. If I hadn't carried my umbrellas I'd be gettin' a sunstroke, just walkin' from the depot. The heat's got on your nerves, as they say—that and havin' two babies pretty close together. I ain't lived seventy-four years for nothin', Gay, and I'd bet my last dollar they're not a thing ailin' you but what I said. I don't need to tell you that Nick's a good boy—a damn good boy, if he does hanker now and then to cut an' run. Guess you've had the same feelin' yourself, only a woman gets a nite more comfort out o' her babies. Now I'm goin' to say hello to Sony, and take me down to the First National Bank. If you'll put him in his go-cart I'd admire to push him along down town. Makes me feel like a genuine granddaddy; and I'll give you a chance to rest up some before dinner."

"He ought to go by—bye," said Gay smiling, "but he'll be delighted at an excuse not to! You're sure he won't be a bother, Uncle Sim?"

"I ain't never been the time yet, Gay. When I'd call a little child a brat, if John Maxwell wants to do business with a baby in the house, he ain't the granddaddy I take him for; but if I find I'm mistaken I'll put Sony in the cage along o' his daddy."

Gay winced, and said, with a smile at her own foolishness: "I know it's ridiculous, but when anyone mentions that cake it makes me shiver. I don't like to see wild things in cages, and

Simon chuckled.

"That's a fine thing to say about a steady boy like Nick. Wild? He must've changed some since last I see him. But there, dearie, I know what you mean. A cage don't seem noways like a cage for Nick. But so long as he holds the key himself there's no need to worry; and if I know Nick he wouldn't swap that cage for the wildest sort o' freedom that didn't include his wife and babies."

"No," said Gay loyally, and her own heart brightened, "I don't believe he would."

"Now you go lay down," commanded the old man as he departed, the huge umbrella in one hand, the other resting on the handle of Sony's go-cart. "Don't you bother with that hot victrola this noon. I'll stop to the drug store and carry up some ice cream if they'll pack it so it won't be runnin' rivers by the time we get here. You just take things easy, Nick, an' me'll do up the dinner later. I'm not company, and you ain't got a thing to worry over."

"You're a big comfort, Uncle Sim," Gay squeezed his hand, and stooped to kiss her little boy. She smiled, and her heart lightened as the grotesque figure of the old man moved down the street, the umbrella sheltering both him and Sony, while he steered the go-cart skillfully with one hand.

There was something so sane about Uncle Sim, she thought. Morbid ideas couldn't live in the same room with him. Perhaps, as he said, her foreboding thoughts had been due to tired nerves. At any rate, she would take a nap, and advise and rest for an hour while the baby slept.

Sony enjoyed that ride down Main Street. Nick might nag him with the untamed wilderness, but automobiles held more fascination for his son. Proudly he pointed out each passing wonder, and listened amiably to Uncle Sim's wise comments. But as they reached the bank his attention left the street, and he tugged impatiently at the strap that held him.

"Daddy?" he questioned, and wiggled so eagerly that the old man's fingers had hard work loosening the strap.

"Hold on, Sony. You just sit still till Uncle Sim can get you home. My! won't Daddy be tickled? Here, now, you'll smash your fingers in that door. Better let Uncle Sim carry you. Be quiet now, and we'll give Daddy a surprise."

But as they pushed back the door it was evident that Nick was busy. He was talking with a lady—a lady

in a soft blue gown whose wonderful rippling hair caught even Simon Bartlett's mild attention. Sony, amazed to find his father occupied with someone else, remained quite silent for a moment, his baby hand tightly clutching at Uncle Sim's convenient collar.

Whatever the lady's business, thought Simon shrewdly, Nick was absorbed—too much absorbed to have noticed the opening door. Then suddenly the boy could restrain himself no longer. He moved uneasily and cried, his childish voice echoing through every corner of the room: "Daddy, it's me! I've come!"

Nick started, and his face broke into a smile of welcome. With one exception everyone in the room smiled, too. The exception was, of course, the lady in blue, who, at the first note of Sony's voice, had been forgotten. Nick did not see that with an impatient shrug she had slipped away, because at just that moment he was receiving a hot and affectionate embrace from his little boy.

But neither the shrug nor the impatience was lost on Simon Bartlett. As he grasped Nick's hand he thought: "I'll bet my Sunday-go-to-meetin' hat that she's the party who upset Nick by singin' that cursed song." About he said: "Well, boy, it's good to see you. I got to have a few words with John Maxwell. Will I leave Sony here or take him along in

"Leave him with me," said Nick. "He likes this cage of mine. Sometimes we're company, and sometimes he's a brat. It doesn't make much difference, does it, old boy?"

"Let's be moo-cows," said Sony gleefully; and Nick agreed with a grin.

(To Be Continued.)

War Is a Crime

No More Excusable Than Murder Says Norway's Premier

Frank B. Kellogg, former United States secretary of state and Dr. Nathan Söderström, archbishop of Uppsala, received the peace awards for 1929 and 1930.

Premier M. Winckel, in an address praising the work of Mr. Kellogg and Dr. Söderström, said the League of Nations is the most powerful institute for promoting peace which the world has developed.

"It is not enough," said he, "to declare war a crime. We must recognize that the murder of thousands of men to settle an international dispute is no more excusable than the murder of one man."

Mr. Kellogg expressed deep appreciation of the honor. He regretted, he said, to hear many voices raised in predictions of another war.

Western civilization, said he, could not survive another such conflict, but he declared he saw nothing to indicate another war in the offing.

Worms however generated, are found in the digestive tracts where they set up disturbances detrimental to the health of the child. There can be no cure for the worms until the harmful intruders have been expelled. An excellent preparation for this purpose can be found in Miller's Worm Powders. They will immediately destroy the worms and correct the conditions that were favorable to their existence.

Mussolini Answered Pile

Arranged Operation For Girl Who Was Born Blind

Maria Rinaldi's life dream has come true, because she had the courage to write a letter to Mussolini. Maria, who is 26 years old, was born blind, but to offset her afflictions she has a natural gift for the piano.

An operation would give her her sight, but her family, who are poor working people, could not afford to buy her a piano.

She wrote the Duce, asking his aid.

In return Mussolini sent her money for the operation, which was successful, and more to enable her to buy the piano she had always wanted.

Douglas' Egyptian Liniment is a quick, certain remedy for Hoof Rot or Thrush. Four or five applications are usually enough.

Good Money Crop

The Southern Alberta money crop this year will reach at least 750,000 pounds, or almost double what it was a year ago, according to the latest figures. The quality this year is said to be very high.

Minard's Liniment for All Pains.

New Town Growing

Minton Is Youngest and Claims To Be Liveliest in Saskatchewan

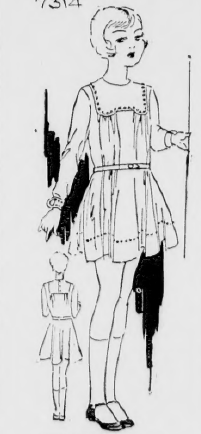

The new town of Minton, located at the end of the steel of the Broomhead-Minton branch of the C.P.R., is now the youngest and liveliest town in Saskatchewan. The townsite was surveyed only a short time ago, yet it has two stores, one lumber yard, three implement dealers, two elevators, one hotel, pool hall and meat market, municipal hall, two blacksmith shops, two garages, one oil station and an up-to-date post office. Minton has a large territory of a splendid mixed farming country, which contains some of the best wheat land in southern Saskatchewan. It is the first town on this side of the border on Highway No. 6, and the best town between Regina and the boundary line. The government had to close its \$10,000 police station near here for lack of business in that line and there is now no police within 35 miles, nor need for one.

The farmers in this territory are exceptionally thrifty and they nearly all own their own farms. Very few even have loans against their land. They're practically all engaged in mixed farming and keep a good deal of stock.

THE LITTLE LASSIE

All Tingey models are patterned and slotted in Paris and the centers are made in New York. What is small daughter's figure—for she has a figure even at this early age. Some small girls are infinitely better suited in yoked frocks. A belted or bodiced style suits others better.

Today's versatile little dress can be worn either belted or loose. It is simple, yet distinguished for its charming and different yoke.

Also any material suitable to a child can be used, including cotton, gingham, wool, and cotton weaves, rayons, challis and other thin wools or washable silks.

French knots or tiny spots are a pretty yoke decoration. For a dressier evening model a tiny pleated self belt outlining the yoke and cuffs is charming. For the simpler models, contrasting binding at these points is also most attractive.

This pattern may be obtained in sizes 4, 6 and 8 years. It is hand cut for immediate delivery. It is hand cut. Send 25 cents (in stamps or coin) to Fashion Bureau. Write carefully and plainly your name and full address, the number of the pattern and the size you want.

Little Helps For This Week

"While I live will I praise the Lord: I will sing praises unto my God while I have any being."—Psalm cxvii. 2.

In faith and vigil; spending dismal days.

Only to lift the tribute of a sigh. Gives God no glory. Come with gladness lays.

All ye who truly love the Lord most high.

For perfect prayer is found in perfect praise.

If mine I were a nightingale, I would do the part of a nightingale. If I were a swan, I would do like a swan. But now I am a rational creature, and I ought to praise God: this is my work. I do it; nor will I desert this work so long as I am allowed to keep it, and I exhort you to join in this same song.—Epictetus.

Where Gold Comes From

Largest Production Of Gold In Canada Made In 1929

The largest production of gold recorded in Canada was made in 1929 according to a report just issued by the Canadian Government Bureau of Statistics. The total output last year of the precious metal from all sources in Canada amounted to 1,028,208 ounces, valued at \$39,861,663, compared with a production of 1,890,582 ounces valued at \$30,082,005 in 1928. Six provinces of Canada and the Yukon Territory produced gold in 1929 as follows: Ontario, 1,022,297 ounces; British Columbia, 154,204 ounces; Quebec, 99,788 ounces; Yukon Territory, 35,892 ounces; Manitoba, 22,455 ounces; Nova Scotia, 2,687 ounces, and Alberta, five ounces. In Ontario, the Porcupine and Kirkland Lake areas contributed practically the whole of the output of the province.

Persian Babu is irresistible. Fragrant as summer flowers, cool as a mountain spring. Wonderfully invigorating, softening and whens the hands. Makes skin soft-textured and youthful. Used by women as a powder base and as a peerless aid to level complexion by its magic. Also an effective hair fixative or shaving lotion. And for children nothing so refreshing as its perfume. To skin like the delicately cool Persian Babu.

Pompeii Yields More Treasures

Ancient Roman Gold Objects Found After Being Buried Eighteen Centuries

Spurred on by discovery of a fortune in ancient Roman gold objects, buried for more than eighteen centuries under the lava of old Vesuvius, archaeologists are pushing on to additional finds.

One of them is a polychromatic statue of Apollo and another a fresco of surpassing beauty. Both of them were in the same ancient house at No. 4, via Abbondanza, hidden A.D. 79, when Vesuvius destroyed this ancient city.

Burnside Notes

Mr. Gus Bittner has been visiting at Wetaskiwin.

Mr. Jimmie Mackie, of Arrowwood has been visiting his aunt, Mrs. Joe Clarke.

BORN: At Didsbury General Hospital on January 15th, to Mr. and Mrs. Enoch Hughes, a son.

Mr. and Mrs. N. Eckel, and son Robert spent Sunday with Mrs. Jas. Hughes, senr., of Westcott.

Mrs. Wm. McCulloch spent a few days last week in Turner Valley with her son, Lewis, who has been holidaying here recently.

Don't forget the concert and dance Community Club are to put on in Lone Pine Hall this Friday evening, January 23rd.

Melvin Notes.

Miss Lillian Kynel is spending the week with Miss Ethel Krebs.

Don't forget "Go-Getters" club-night, Saturday, January 24th. Everybody welcome.

Miss Marion Johnston is spending the week with Miss Dorothy Youngs at Emmerdale.

The whist drive and dance at Melvin last Friday was well-attended and everyone seemed to have a good time, a few still nursing sore feet.

"Hard times are here again." The Melvin "Go-getters" are having hard time dance at Melvin School on Feb. 6th.

Mr. Edgar Wiggins entertained a number of friends on Monday night. The evening was spent in dancing and everyone seemed to enjoy the Moonlight waltz.

If your Radio needs repairing or modernizing, call Leo Pickering, Office, E. A. Albin is an expert on battery sets.

Mountain View Notes

Mr. Eric Atkinson was a visitor in Red Deer for the week-end.

Mrs. H. Atkinson is the guest of Mr. and Mrs. Hopworth, of Red Deer.

Mona and Neapolis residents are being visited by springtime dust-storms, and the ladies are hoping they'll soon abate, as household duties are heavier.

Mr. and Mrs. Edward Barnes entertained at a delightful whist party on the evening of January 18, many of their friends and neighbors being present. The prizes were won by Mrs. Enlay, and Mr. and Mrs. H. Shultz, congratulations going to Miss E. Sinclair, and Mr. G. Tighe.

A successful whist drive and dance was held in Community Hall on January 16th, under the auspices of Mountain View W. L. The M.C. for the evening was Mr. Hugh Roberts, and prize-winners were: Messrs G. Clarke, and S. Tighe. Congratulations were awarded to Mr. Lundell, and Mrs. H. Pearson. The W.L. extends a hearty vote of thanks to all those who helped make this such a successful affair.

The monthly meeting of the W.L. took place at the home of Mrs. Inna. Mrs. H. Pearson, convener of "Household Economics," gave a good paper on "Sanitation." The members of the Institute also had the pleasure of hearing Mrs. H. Pearson, a good, confident, and convincing, who brought several new ideas, and gave a splendid talk on "Loyalty to Institute and Officers." It was decided by the members to send individual contributions to the World's Home in Calgary.

Rebekahs Hold

Whist and Bridge

The Didsbury Rebekahs held a very successful whist and bridge party last Monday evening. Mrs. "Op" and Mrs. Cuffing tied for the ladies prize for whist. Mrs. Cuffing winning the cut. Mr. J. McDougall won the gent's prize. For bridge Miss Aileen St. Clair won the ladies prize and Mr. J. Devolin the gentlemen prize. After lunch dancing was indulged in.

Hard Surfaced Roads

Government Has Plans Under Way for Hard Surfacing

Alberta's gravelled highways are already proving insufficiently serviceable to handle the ever-growing volume of motor traffic and are forcing the provincial government to contemplate the introduction of a system of hard-surfaced roads in the sections of the heaviest traffic. Hon. O. L. McPherson, minister of public works, told officials and members of the Alberta Motor Association at their annual meeting, held in the Palliser Hotel, Calgary, this week.

Realizing the comparatively short life and the expense of maintaining even the best gravelled roads, the government has been conducting tests with a number of oil and asphaltic materials, one of which it is expected may replace gravel on sections of the provincial system within the near future, said the minister.

Hon. Mr. McPherson outlined at some length the tremendous problem faced by the government in providing highways throughout a province with Alberta's sparse population. Alberta, he pointed out has 2.5 people to the square mile, compared with 183 in the New England and mid-Atlantic states, and 359 in the British Isles, and the rapid advancement of motor transportation and remote scattered settlement has necessitated the building of roads, at times possibly, beyond the limit of economic justification.

He emphasized the need for a balanced program of road construction as between main highways and secondary or district roads stressing the importance of each in the development of the province. Approved method of location and construction were constantly changing, he showed, and the department is making every effort to build for future traffic requirements as well as for present necessity.

Alberta by July, 1931, said the minister, will have a total of 1,875 miles of standard graded road and 1,429 miles of gravelled highway and will have completed 512 miles of standard grade and 692 miles of gravel during the season of 1930-31 on main and secondary systems, including the mileage constructed under addition, considerable work has been done on the Peace River and Jasper highway.

The aim of the provincial government in regard to its highway program will be to continue a normal course midway between economy and the constant demand for expansion declared the minister, since the duty of the public should be to carry on, as far as possible, their regular projects as a means of tiding over difficult financial periods.

A total of 750 miles of main highway will be kept free of snow during the coming winter, according to present plans, as compared with a mileage of 550 last year. Quebec, where the traffic is much heavier than in Alberta, is attempting to keep only 400 miles of road clear of snow.

The replacement cost of the provincial highways, in some sections, runs as high as \$400 a mile annually, said the minister, while surface maintenance costs approximately \$500 a mile, and the laying of an oil coating to settle the dust runs the cost up another \$400 a mile, and the cost of maintenance is constantly increasing with the growing volume of motor traffic.
